CITY CLERK

Good Morning, I reached out to the County Assessor today to check on the appeals. She told me for just the county they are around 300 appeals she didn't have number for Harrison they still have time to file but she seemed like this about normal amount. I asked about the timing of the appeals being done and she has told me that they are going to try and have them all heard by end of the year which means corrected bills will be done before taxes are due in May. There may still be some state appeals out but that is what they are hoping for. Just thought I would share the info I found out. Any questions please reach to me. Thank you Amy
